State Transportation Departments,

RE: Construction Cost Index

Attached is the Utah Construction Cost Index for the 2nd quarter of 2007.

If you have any questions or comments please call me at (801) 965-4344.

Sincerely,

Thomas A. LeHolm
Manager, Contracts, Estimates/Agreements

UTAH DEPARTMENT OF TRANSPORTATION
Construction Cost Index
2nd Quarter of 2007

The Utah Construction Cost Index for the second quarter of 2007 stands at 290.8 up (3.8%) from the first quarter of 2007. This is down 2.0 points (1.0 %) from the annual index of 2006.

Increases, during the second quarter, were recorded in Bitumen, Butuminous Surface Mix, Reinforcing Steel, Structural Steel and Structural Concrete.

The average number of bids, per project, during the 2nd quarter are at 2.5, down 0.2 from the previous quarter. The average number of bids per project was 2.7 during the first quarter of 2007.

The project values used for the preparation of this quarter's index are distributed as follows:

Project Value	Number of Projects	%	Value of Projects	%
Under \$100,000	1	2.4%	\$81,363	0.1%
100,000 to 250,000	4	9.8%	\$536,506	0.7%
250,000 to 500,000	10	24.4%	\$3,681,130	4.9%
500,000 to 1,000,000	11	26.8%	\$7,639,578	10.3%
1,000,000 to 2,500,000	5	12.2%	\$9,800,479	13.2%
2,500,000 to 5,000,000	6	14.6%	\$22,984,167	30.9%
Over 5,000,000	4	9.8%	\$29,700,625	39.9%
	41	100.0%	\$74,423,849	100.0%

The Utah Construction Cost Index is composed of seven indicator items and it is based on the total quantities used during 1987. These items are used to indicate the price trend for roadway excavations, surfacing and structures. These indexes and the composite index are shown on the accompanying table and graphs for the period from 1966 to present. The indicator items account for 33.9% of the total costs for projects bid during the second quarter of 2007.

Roadway Excavation - \$6.79 per cubic yard

This price decreased \$2.44 per cubic yard from the average unit price of 9.23, which was last bid the first quarter of 2007.

Bituminous Surface Mix - \$71.55 per ton

This price increased \$9.46 per ton from the average unit price of \$62.09 which was last bid the first quarter of 2007.

Bitumen - \$467.40 per ton

This price increased \$72.89 per ton from the average unit price of \$394.51, which was last bid the first quarter of 2007.

*P.C.C.P. (9"-11" Thick)- \$55.51 per Sq. Yd.

This price decreased \$8.00 per ton from the average unit price of \$63.51, which was last bid the fourth quarter of 2006. This item was not used during the first or second quarter of 2007.

Reinforcing Steel - \$1.48 per pound

This price increased \$0.44 per pound from the average unit price of \$1.04 which was last bid the first quarter of 2007.

Structural Steel - \$3.00 per pound

This price increased \$1.05 per pound from the average unit price of \$1.95 which was last bid the first quarter of 2007.

Structural Concrete - \$1,030.05 per cubic yard

This price increased \$536.23 per cu. yd. from the average unit price of \$493.82 which was last bid the first quarter of 2007. This large increase is due in part to the small quantities bid per project. Average quantity per project for the 2nd quarter is 90 cu. Yds. Average quantity in the 1st quarter; 500 cu. Yds.

***For the purpose of providing an index in an unused item, the average of the preceeding year was used.**
